Filed June 22, 2021 File No. 333-255118

Dear Mr. Leonard:

We have reviewed your amended registration statement and have the following

comments. In some of our comments, we may ask you to provide us with information so we

may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the

requested information. If you do not believe our comments apply to your facts and

circumstances or do not believe an amendment is appropriate, please tell us why in your $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right$

response.

provide in response to these comments, we may have additional comments.

Amendment No. 2 to Registration Statement on Form S-4

Tax Consequences of the Continuance to U.S. Holders, page 251

You disclose it is 1. intended that the Continuance qualify as a reorganization under Section 368(a)(1)(F) of the) and the remainder of this discussion Code (an F reorganization assumes that the Continuance so qualifies. As the tax consequences appear material to an investor and tax counsel has included a representation that a U.S. Holder that exchanges its SOAC securities in the Continuance for TMC securities should not recognize any gain or loss on such exchange, please provide a tax opinion on this matter. We note that you have removed Exhibit 8.1 from your Exhibits Index. If you elect to use a short-form opinion, the Exhibit 8 short-form opinion and the tax disclosure in the prospectus both must state clearly that the disclosure in the tax consequences section of the prospectus is the opinion of the named counsel. jurisdictions and under national as well as international laws and conventions. No seafloor

polymetallic nodule deposit has been harvested on a commercial scale, and it is not clear

what environmental parameters may need to be measured to satisfy regulatory authorities

that an Exploitation Contract should be granted." We note that you have not obtained any

final regulatory approval or licenses for collecting and processing polymetallic

nodules under the various jurisdictions and that there is no definitive timeframe to obtain

such approval yet.
